Brigade Orders by Lt. Col. Hamilton
Commanding the Eastern (Defending) Force.

Head Quarters, High Park Station,

23rd November 1893, 6 o'clock a.m.

Eastern
Brigade
Orders

The following detail and Orders are issued for the information and guidance of all ranks. -

Military Situation.

From information received it is believed that a column of the Enemy is moving Eastward from Lambton for the purpose of trying to force an entrance into Toronto. -

On account of natural and other obstacles it is impossible for them to carry out this design except by entering at the junction of Roncevalles Ave. and Queen Street. -

The "Queen's Own Rifles" 1st and 2nd Battalions, 6 companies in each Battalion with a Half Troop of Cavalry and the Cyclist Corps of from 15 to 20 Men will form a Line of Outposts and will protect that part of Toronto known as Parkdale to the North and West.

Should the Enemy attack before 12 o'clock noon to-day our line of Defence is to be held until further orders. -

The Brigade will move from its Head Quarters at 9.30 a.m. Five companies of the 2nd Battalion will enter High Park at the Eastern Gate leading from the Lake Shore Road and will proceed by the shortest route through High Park and will establish a line of Picquets from about the corner of Roncevalles Avenue and Bloor St. South Westerly to the High Ground just North East of the North end of Grenadier Pond and then Westerly across the Ravine to the High Ground near the junction of Bloor and Elizabeth Streets. The Picquets will be numbered from our right and will be Five in number viz: - Nos 1. 2. 3. 4. and 5. as marked on the accompanying Map. Each Picquet will cover its front by throwing out double sentries or groups, and if necessary

forming small detached or "lossack" Posts and examining Guards. This Battalion will also establish a Support at the junction of the two Roads in High Park leading from the Lake Shore Road and marked "N^o 2 Support" on Map. The remaining company of this Battalion will join the Reserve.

The Officer Commanding this Battalion will take charge of the Picquets, Cavalry Scouts, Cyclists and reconnoitring Patrols, also the Signal Stations. A Major of this Battalion will have a general charge of the Supports.

*Eastern
Brigade
Orders
(contd.)*

Should the Enemy attack in force the Picquets will retire on their Supports offering a stubborn resistance; the Supports will strengthen their position by the construction and use of Shelter Trenches and all possible cover and will hold their Line of Defence until further orders.

One company of N^o 1 Battalion will proceed North along Indian Road and will form a Support just East of that Road about 300 yards South of High Park Ave. marked "N^o 1 Support" on Map. Another company will proceed West by the Lake Shore Road, and will establish a strong Detached Post just South of Grenadier Pond, marked Y on Map, so as to control the Lake Shore Road and Approaches at this point. A Section of this company will enter High Park at the Central Gate leading from the Road and will occupy the High Bluff overlooking Grenadier Pond keeping well out of sight of any approaching Enemy.

The Officer Commanding N^o 1 Battalion will see that this company is provided with axes and other tools to enable them to fell trees and make obstacles for the purpose of impeding and delaying the approach of the Enemy. This position will be held at all hazards until further orders.

The Four other Companies will proceed North

by Indian Road to the junction of that Road with Garden Ave. where a Reserve will be established.

The Officer commanding N^o. 1 Battalion will have charge of the Reserve, and by the construction of Shelter Trenches, Earth Works and other obstacles will make the line of Final Defence marked X-X as strong as possible.

Eastern
Brigade
Orders
(contd.)

Each Picquet and the strong Detached Post will Scout by reconnoitring Patrols from $\frac{1}{4}$ to $\frac{1}{2}$ mile in front of their Picquet Sentries but these Scouts will not march out before 10.30 a.m.

The cyclists will Scout on Roads which can be advantageously used by them; the rougher roads will be assigned to the Cavalry.

All Parties, Picquets, and Supports in marching to the positions they are to occupy must observe due precaution by throwing out advanced and flanking Parties so as to feel their way carefully towards the front.

The Signal Corps will establish 3 Stations marked A. B. & C. on Map for the purpose of forwarding Orders and information.

A Field Hospital will be established by the Senior Medical Officer on convenient ground near the Reserve.

The Regimental Reserves Ammunition so as to complete 100 Rounds per man will remain with the Reserve until further Orders.

The Head Quarters of the Officer Commanding the Brigade will be near the four-towered Pavilion East of Road leading to the Eastern exit from High Park. Should the Supports be ordered to retire the Head Quarters will be moved to the Reserve.

W. McNeill Capt.
Adjutant.

Head Quarters

Ottawa, 31st Jan 4 1894.

G.O. 1.

1. The Infantry Drill as revised by Her Majesty's Command in 1893 will henceforth be used in the Canadian Militia.
2. In placing this book in the hands of the Militia the Major General Commanding desires to draw attention to the Army Order

dated the 1st June 1893 which is to be found therein, and in particular to the third paragraph of that Order. -

3. This paragraph lays down the necessity for precision in the early stages of the soldier's instruction viz: - in the squad, section and company's drill.

4. The Major General commanding desires further to draw attention to General Order (21) of the 24th December 1891 in which his remarks on the Militia Training are given as follows viz: -

"The drill of the company individually, as a company or as a squad has been neglected *****
"It is then seen that the significance of the company, as a tactical unit is not sufficiently appreciated, and still less so that of the minor units, half companies and sections."

He trusts that Officers will do their utmost to amend this fault. -

5. In order that the time available for drill may be utilized to the utmost, in a practical manner, the following rules will be observed: -

(a) Part IX "Ceremonial" will not be included in course of training of the Militia. -

(b) The Sizing of Companies Part X Sect. 222 will not be carried out. Companies are to be sized roughly from flanks to centre, but as cohesion within the section is of more importance than accurate sizing, brothers, relations, or "chums" are to be placed in the same section without reference to size. -

(c) Special attention is drawn to Part II "Company organization" Sect. 58 General Rules. It will be borne in mind that the full strength of a company of Canadian Militia should be 32 files (i.e. 64 Rank and File exclusive of Sergeants and Supernumeraries) and thus that the section should consist of 8 files

with a front of 6 yards.

(d.) Companies of a less strength than that given in (c) are invariably to parade in single rank and are to be drilled in single rank, in order that all ranks may become accustomed to working with the full company front of 24 yards.

(e.) Companies will parade as shown in Plate VII Fig. 2. with an interval of 2 paces between sections. The formation given in Plate VI will not be adopted unless necessitated by confined lateral space.

(f.) Saluting (Part I Sect. 7). will be practised with the right hand only.

(g.) Physical Drill should be practised regularly in City Battalions. The system of devoting a quarter of an hour of each drill, to one only of the exercises detailed in Part I Sect. 48 will be found most advantageous. Not more than two practices should be attempted in the whole drill season. Physical Drill should always be performed in shirt sleeves.

G. O. II.

1. The publication of the following book has been authorized viz:-

"Manual, Firing and Bayonet Exercises, with the order of Guard Mounting, for the use of the Canadian Militia."

3. The exercises as therein described are to be strictly adhered to by all Infantry units without exception.

N^o 5 The Officer commanding desires to express his thanks to the Officers, Non-Comm. Officers and Men of the Regiment for their regularity in attendance and strict attention to duty during this Spring's Drill, especially on the part of the members of the Regimental Squad and Ambulance Corps who took part in exercises at the Military Tournament. He desires further to congratulate the Regiment upon the exemplary conduct of all ranks at St. Thomas on the Queen's Birthday, and while regretting that the unfortunate incident which has led to so much

controversy has cast a cloud upon the name of the Queen's Own he feels assured if it can be proved that any men wearing the Rifle Green were guilty of the foolish act ascribed by some to members of the Regiment that none will desire but the most condign punishment shall be visited on one and all who may have disgraced their uniform.

N^o 3 The days upon which Corps propose to do the above practice must be notified to the District Office at least one week in advance in order that arrangements may be made for proper supervision of the firing by an Officer detailed for the purpose.

N^o 4 Not more than one day each will be allowed for the practice when done by Companies. If the Class firing is done at Coy or Battⁿ Matches no practice will be allowed on that day before the Class firing takes place.

N^o 5 To obtain value of Target practice multiply the number of points obtained by 50 and divide the product by the highest possible score obtainable by the actual number which have completed target practice carrying the division to two decimal places.

N^o 6 For the Comparative Efficiency test the strength of a Company will be fixed at 37 N.C.O. and Men. One point for each Class absentee from Class firing will be deducted.

MARCHING AND FIRING COMPETITION.

First Prize, Challenge Cup and \$50.00; Second Prize, \$30.00.

The Competition will take place during the afternoon, about the 16th of October next, and be open to teams from any Battalion or Corps in M. D. No. 2, under the following regulations:—

A.—OBJECT OF THE COMPETITION.

To combine the marching and shooting powers of the soldier by finding the team which makes the greatest number of hits in an attack on a small position represented by a target, after marching a distance of about eight miles.

B.—COMPOSITION OF TEAMS.

A Team will consist of 12, composed as follows: One Officer (any rank), one N. C. O. not below the rank of Sergeant, and 10 Rank and File. In the rank and file not more than two of the ten may be of the rank of Corporal (Lance Corporals will be treated as Privates). A bugler or bandsman must not form one of the "rank and file." All N. C. O. and men must be certified by their Commanding Officers as having in a city corps performed the spring drill of 1897, and in a rural corps the last annual drill authorized for it.

The officer will be in command and act as "Captain" of the team, but, during the attack portion of the Competition, the words of command will be given by the sergeant, and only the 10 rank and file will fire.

C.—RIFLES.

The Lee-Enfield, Martini-Henri or Snider Rifle only to be used, of Government issue; the minimum pull-off will be 6 lbs. The regulation slings must be on the rifles, but only used during the march; sights may be blackened but not colored with white or other paint; the notch may be used, or the bar reversed as preferred, if bar reversed, 3 lines will be allowed on the bar; orthoptic sights not allowed.

D.—AMMUNITION.

"Government," and will be issued previous to starting, and only such as issued can be used.

E.—DRESS.

Drill order, with leggings.

F.—METHOD OF CONDUCTING THE COMPETITION.

1. THE MARCH.

The whole of the Teams entered will be drawn by lot, and formed into details of two or more teams each. Each team will be notified the exact time it will be required to parade at

corner of King street and Roncesvalles avenue. The various teams composing a detail will form upon the order in which they were drawn, about 20 paces apart, and will be marched off by a mounted officer, who will act as umpire and accompany the teams to the Long Branch Ranges. After the ammunition has been issued, and he has inspected the pouches and ascertained that each man of the rank and file has sixteen rounds therein, this order on the march need not be adhered to, as there is no objection to a team halting for a time, or getting in front of another, etc., but once a team is under the orders of the umpire, no man is to enter a house until his team has completed its firing. The main road (Lake Shore) will be taken, and all teams must march by it. The distance to be traversed is about 8 miles, and the time allowed for the march (including any halts) will be $2\frac{1}{2}$ hours. An officer will be detailed to attend at the rendezvous before the first detail starts, and it will be in his power to allow an extra 15 minutes for the march if in his judgment the exceptional state of the weather should render it desirable.

No credit will be given to a team reporting itself before the expiration of the allotted time, but 5 points will be deducted for every minute over that time, and no team arriving more than 10 minutes late will be allowed to take part in the attack. A team reporting itself before time will not be allowed to fall out after so reporting.

On arrival at the Ranges, the captain of the team will report to the Chief Umpire. A team must have started from the rendezvous complete as to numbers, but, should it arrive at the "Ranges" incomplete, it will be allowed to take part in the attack. In the event of the officer or the sergeant, or both, having fallen out, their places will be taken by members of the team, who will not, however, be allowed to fire. The captain having reported the arrival of his team, will sign a declaration that the rules for the march have been strictly adhered to by the team under his command, and that no outside assistance was received in carrying arms and accoutrements.

2. THE ATTACK.

The captain of each team, on arrival, will draw by lot from the chief umpire a number coinciding with the range and butt his team is to fire on, and the officer acting as the Range Umpire of that range will direct him to it. The team will be formed up in single rank at about 2 paces interval, on a flag which marks the centre of the firing point of the allotted range, and is placed at 600 yards from the position to be attacked. The captain having satisfied himself that everything is correct, will call his men to attention, and report "all correct" to the umpire at that firing point. The umpire will inspect the section especially as to the required equipment being correct, the proper number of rounds being in the pouches, and the rifles, sights, pull-offs, etc., correct, and will then direct the captain of the team to order his men to rest, kneeling or lying down, but they must not fall out. The sergeant will now take over command of the section, the officer superintending. The umpire will drop a flag as a signal to the chief umpire that he is ready, and, when all the flags are down, the chief umpire's bugler will sound the "Advance," and the attack will commence. Fifteen minutes will be allowed for the attack, at the conclusion of which time the chief umpire's bugler will sound the "Cease Fire," when firing will at once cease and rounds unexpended be forfeited. The following will be the method of carrying out the attack, and it is to be clearly understood that a team may take its own time in carrying it out, and need not conform to the teams on the right or left, as the distance apart of the teams is quite sufficient to allow them to act independently of one another.

The sergeant will give the command "Advance," and on reaching the first peg, placed at about 550 yards from the target, will give "Volley Firing," "Lying Down," etc., "Ready," "At" "No. — Target," "At," or "Fixed Sight," (*i.e.*, 500 yards), "Present," "Fire," firing two volleys. After the second volley at each target, no matter in what position the volleys have been fired, each man will at once come to the "Rest Position, Kneeling," remaining steady, without ejecting

58

the empty case, and without word of command. The "Advance" will again be given and two volleys fired as each peg is reached. The rate of advance throughout will be "Quick Time." On the "Cease Fire" sounding, the sergeant, having given the command "Cease Fire," will give the command "Order Arms," and will inspect the arms and pouches of his section carefully, and report "All Correct" to the captain, who will in turn report to his umpire. The team will then be marched back in rear of the 600 yards' firing point and dismissed.

Sights may be adjusted as required, and swords fixed, if desired. All loading will be from the pouch. After leaving 600 yards there will be 8 halts, the position for each halt being denoted by a peg: the first peg will be placed at 550 yards, and the last peg at 250 yards, the intermediate six pegs being placed at 500, 460, 420, 380, 340 and 300 yards respectively.

G.—TARGET REPRESENTING THE ENEMY.

One Target, 6 feet square, having three figures pasted on it, two such targets will be allowed for each team.

H.—REGISTERS.

Specially prepared, and will be sent to Teams.

I.—DISTANCE.

600 to 250 yards, the *shooting commencing* at 550 yards.

K.—NUMBER OF ROUNDS.

Sixteen, all to be expended in volleys, two at each of the eight halts.

L.—POSITION.

"Any military" for the first six volleys, "Kneeling" or "Standing" for the last ten volleys. The commander at each halt will order what position (viz.:—"Lying Down," "Kneeling" or "Standing") his section is to adopt for the two volleys: every man in the section, therefore, must adopt the position ordered, unless unable, owing to the nature of the ground, to see the target.

M.—HITS.

Hits and ricochet hits on any part of the target to count one point each: the "highest possible score," therefore, being 160.

N.—ENTRIES.

To be made at the District Office by the 1st October.

Any Battalion having entered a team and subsequently finding that it is unable to compete must notify the District Office to that effect one week previous to the competition, otherwise unnecessary expense is incurred, and the squadding arrangements are upset.
